EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Att. Pate on December 21, 2005.

The application has been amended as follows:

In the claims

In claim 8, lines 5 and 6, before "filter", insert – bandpass --.

In claim 18, line 1, before "filter", insert – bandpass --.

In claim 20, line 5, before "filter", insert – bandpass --.

Reasons for allowance

The following is an examiner's statement of reasons for allowance:

None of the prior art disclosed or suggested to show the particular structure and/or the particular operation recited in these claims namely: "providing a band-pass filter ..." in combination with all the method steps as recited in claim 1; "the bandpass filter" in combination with "the triangle wave generator" as recited in claim 8; "generalized impedance converter configured to bandpass filter the triangle ... predetermined amplitudes" and "a Schmidt trigger oscillator" in combination with "an integrator" as recited in claim 20.

The prior art references submitted by the applicant on IDS form received on 10/31/05 was reviewed and considered. However, the combination of all elements recited in claims 1, 8 and 20 are not disclosed. Therefore, the claims are patentably distinct over all these prior art references of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
